# 1. What is a billing agent?

The Landlord is one of your energy providers, being responsible for making energy (for example heat or any other supplies provided by the landlord) available at the times and in the quantities you require.

MY Utilities act as a billing provider to administer the raising of charges and collection of payments in respect of your use of the energy supplied. If you want to know more about the role of a metering and billing agent, we have a short video in the Knowledge Centre on our website at:

## 2. Do you have a complaint?

If you are a resident or sub tenant and have a complaint about our services, then you should follow the procedure detailed in section 3.

For complaints about our services, we would always recommend you first contact us and request to speak to the account manager for the property where you are in occupation. Highlight the issue and therefore give the opportunity for the relevant team members to act quickly to support you.

You can make contact through the contact centre at:
